

Ashok Mendonsa *Junior software developer*

ashokmendonsa.mca.2025@pim.ac.in | 9353990461 | Udupi,Karnataka | India
AshokMendonsa

SUMMARY

Aspiring Full-Stack Developer with strong foundations in Data Structures & Algorithms, Java, C++, and JavaScript. Hands-on experience building web applications using modern frontend and backend technologies alongside database systems. Passionate about writing clean, maintainable code and building scalable software applications

SKILLS

- **Programming Languages:** Java, Python, C++, JavaScript
- **Web Development (Frontend & Backend):** HTML5, CSS3, JavaScript (ES6+), Node.js, Express.js, RESTful APIs
- **Databases & Storage:** MySQL, PostgreSQL, MongoDB
- **Core Concepts & Tools:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), Git, GitHub

LANGUAGES

: English | **Language Level:** Fluent / Full Professional Proficiency | **Kannada** | **Language Level:** Native / Full Professional Proficiency | **Konkani** | **Language Level:** Native / Bilingual | **Tulu** | **Language Level:** Native / Bilingual | **Japanese** | **Language Level:** Elementary / Basic (or *N5 / Beginner*)

EDUCATION

Poornaprajna Institute of Management, *Masters in Computer Science*
10/2025 – 10/2027 | Udupi,Karnataka

PROJECTS

Mobile Grocery Delivery Application,
Team Project | Android, Java/Kotlin, Database Management
08/2026 – 09/2026

- Collaborated with a cross-functional team to design and develop an intuitive Android application for grocery ordering and delivery.
- Implemented key client-side features including product search, categorized browsing, and real-time cart updating.
- Integrated database endpoints to handle inventory synchronization and secure checkout workflows.
- Utilized Git for team collaboration, managing merge requests, and maintaining clean version control practices.

Bespoke Furniture E-Commerce Web Application,
Solo Project | PHP, JavaScript, Python, Web Technologies
01/2026 – 02/2026

- Developed a full-stack furniture e-commerce website from scratch as a solo developer, featuring responsive UI and dynamic product listings.
- Built backend functionality using PHP to manage user authentication, cart logic, and transaction processing.
- Integrated Python scripts for backend data processing and database maintenance to streamline product catalog management.
- Designed an interactive frontend with JavaScript, HTML, and CSS to deliver a seamless shopping experience.

INTERESTS

— **Creative & Digital Design:** Photography, Image & Video Editing, Graphic Design, 3D Modeling | **Tech & Open Source:** Exploring & Starring GitHub Repositories, Gaming | **Community & Travel:** Travelling & Local Exploration, Google Local Guide (Reviewing Local Businesses & Restaurants)

DECLARATION

I solemnly declare that the details furnished above are true and accurate to the best of my knowledge.
